## **FLEXIBLE INDUSTRIAL CURTAIN COLD STORAGE / FOOD PROCESSING / INDUSTRIAL**

Flexible industrial curtain walls are an economical solution in containing, separating, or isolating different environments and are ideal for use where flexibility is needed for on-site changing conditions. Curtains are easily installed and can be moved with ease, unlike a permanent wall.

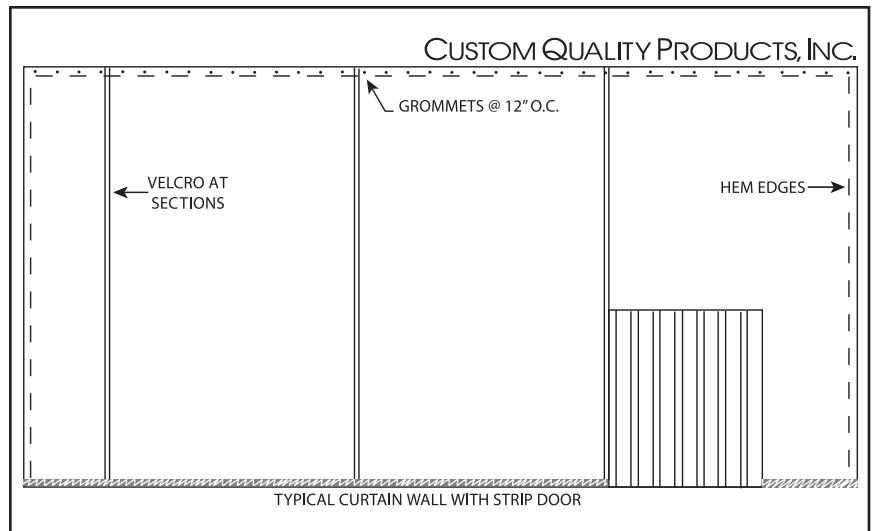

- **USDA accepted**  
(white or clear only)

### **FEATURES:**

- Curtains constructed of single layer reinforced vinyl or PVC. Hems included.
- Sliding track or fixed mounting.
- Mounting grommets provided at 12" centers across top and down sides.
- Where necessary curtain is fabricated in sections and joined with Velcro.
- Standard color in white, blue or clear.
- Weight pocket optional.

**ARCHITECTURAL SPECIFICATIONS**

Where indicated on plans, furnish Flexible Curtain Walls by Custom Quality Products, Inc.

**TYPICAL APPLICATIONS:**

- Separation of Temperatures
- Smoke, Particle and Fume Containment
- Sliding Enclosures
- Welding, Sanding, Grinding Areas
- Cold Storage Warehouses
